

WE WON!

The Teamsters have been certified as our bargaining representative at East End Bus!

Congratulations. We have achieved what we've set out to do. We've successfully formed a union at East End Bus and now the National Labor Relations Board has certified the Teamsters as our official bargaining representative.

This couldn't have happened without the hard work of all of us. We've united to uplift ourselves and make our workplace better. Now that we're certified, we have the power of the Teamsters union behind us.

We will continue to distribute collective bargaining information as soon as we get it.
